

Clean Water Act Section 404 State & Tribal Assumed Programs – Information Collection Request

The Wetlands Division of the Office of Wetlands, Oceans, and Watersheds published a notice in the Federal Register on July 11, 2006, regarding the collection of information related to wetlands state/tribal assumed programs. This notice is a renewal of an existing collection request that is scheduled to expire in November of 2006.

The information collected under the Clean Water Act Section 404 State/Tribal Assumed programs is for:

- Evaluating state/tribal 404 program assumption requests;
- Assuring that state/tribal issued permits comply with the 404 regulations including the 404(b)(1) guidelines and that the proposed projects avoid, minimize, and compensate for anticipated impacts;
- EPA oversight of the assumed programs including the annual report submitted by the State/Tribe to EPA.

EPA is requesting comments on this Information Collection Request (ICR). Comments must be received by September 11, 2006. The ICR notice and supporting information are available through the Federal Docket Management System at <http://www.regulations.gov/fdmspublic/webcomponent/library/searchresultslist/wait.jsp> by referencing docket ID number OW-2005-0023.
